1.2 RCS Business Messaging

Within this MBAPI portal, the customer can book and manage the products to be purchased and access various documentation.

- Basic Message - Charge for a plain text message of up to 160 UTF-8 characters.
- Single message - Charge for a single message containing rich RBM content (for example, a message containing a rich card or carousel).
- Session - Charge for a conversation that consists of multiple A2P and P2A messages in a given time period.
- If the recipient of a RCS message (Basic, Single) replies to the received message within 24 hours, the RCS message is charged as a RCS Session instead of the price for a RCS Basic or RCS Single message.
- Within a session that lasts a maximum of 24 hours from its start (the mobile subscriber sending the first reply), no prices are charged for additional messages sent within that RCS Session.
- After the maximum session time (24 hours) has expired, another session can be started in the same way.

6.5 Additional Notes

- For customers who require more volume of sessions than what's included in the advanced plan, we can build an ad-hoc Studio subscription
- Fair usage policy: Customers should use max 50 events (webhook + HTTP + events) per session in average. If they exceed consistently this limit, we might revise the subscription price
